

## **NIGMS RFI: Additional Technologies for Resources and Centers**

Dear Genetics Society of America Member,

Would you like to influence the future technology scope of the National Institute of General Medical Sciences (NIGMS) supported Resources and Centers? You can do so by responding to a Request for Information (RFI) related to the [NIGMS National and Regional Resources \(NRR\)](#) and the [Biomedical Technology Optimization and Dissemination \(BTOD\) Center](#) programs.

The RFI seeks input from the extramural community on additional technologies that would be of value to biomedical research if supported by the NRR or BTOD Center programs.

To learn more about the specific information requested and how to submit a response, please read the [NIGMS feedback loop post](#) and the [associated RFI](#). All responses are voluntary, anonymous, and must be submitted electronically via the [web form](#) by September 30, 2024.

If you have any questions or need further clarification, please do not hesitate to contact us using the email below.

NRR/BTOD RFI Team: Han Nguyen, Sangita Sinha, Jiong Yang, and Ashley Barnes

Email: [NIGMS\\_NRR\\_BTOD\\_RFI@nih.gov](mailto:NIGMS_NRR_BTOD_RFI@nih.gov)
